One Health Asia Programme in Nepal

One Health Asia Programme in Nepal (OHAP) is implemented by ANSAB in partnership with the Relief International (RI) and financial support of the European Union. The project is premised on the One Health approach to improve health and wellbeing of the fragile population through the mitigation of risks and crises that originate at the interface between humans, animals, and their various environments. Implemented in Chitwan, Rupandehi and Banke districts of Nepal from March 2014 to January 2017, the project has the overall objectives to reduce zoonoses and their impact on fragile population by i) creating awareness for the behaviour change; ii) developing prevention and response capacity of communities, government agencies and academia; and iii) integrating surveillance of zoonoses within the government existing system and regulation.

About One Health Directory

This One Health Directory has been prepared under the One Health Asia Programme in Nepal implemented by ANSAB in partnership with Relief International and financial support from European Union to bring together the contact details of the public and animal health practitioners and professionals in Chitwan, Rupandehi and Banke districts. It includes the name and addresses of the professionals working in the District Livestock Service Office, District Public Health Office, Universities, Health and Service Centers along with the private practitioners and community health workers at the district level in the three districts. Furthermore, it also includes brief details of the professionals and contact persons at the regional and central level agencies working in one health sectors.

It is anticipated that with this directory, the service seekers in each district could be acquainted with the professionals and practitioners in their appropriate location, and also contact them for their respective services. The contact details will also help in collaboration, networking and coordination among the professionals involved in one health sector at the district and also at regional and central levels.

This directory has been prepared by the One Health Asia Programme team in ANSAB with contribution from Mr. Puspa L. Ghimire - Programs Director, Dr. Krishna P. Sankhi - National Zoonosis Coordinator, Mr. Sudarshan C. Khanal - Research, Planning and Communication Manager, Ms. Aakriti Poudel - Monitoring and Evaluation Officer, Dr. Bivek Ghimire - Technical Officer, Mr. Yadu K.C. - Community Mobilization and Public Awareness Officer and Mr. Mohan Pandey - Community Mobilization and Public Awareness Officer.

Bhishma P. Subedi, Ph.D.
Executive Director
